

# RecoveryPro

## From Template to Preparedness

Your credit union may not be able to prevent a disaster from occurring, but you can be ready when it happens. Security, data recovery, and peace of mind are priceless when faced with a catastrophic loss. **RecoveryPro** can get your credit union's Business Continuity Plan (BCP) in place!

### RecoveryPro Features

- \* Guidance on key information needed to develop planning objectives
- \* Incident Response identifies what is needed to manage developing incidents
- \* Business Impact Analyses identify and prioritize critical business functions
- \* Actionable Business Continuity Plan components for any event type
- \* Validation & maintenance to ensure your BCP is effective and up to date

### All-new content management system

The RecoveryPro system was completely rebuilt in September 2021 and brings additional tools and functionality to develop, document, and implement your BCP!

RecoveryPro will help you navigate through the complexities of business continuity planning!
