

# PERFORMANCE PRO TEAMS APP FOR EMPLOYEE ENGAGEMENT

The Performance Pro Teams App for Engagement puts performance right in the middle of the conversation on Microsoft Teams. Employees can set their personal settings across a number of engagement categories and adjust in real time as business occurs in your organization. Managers learn how best to work with employees, how engaged employees are with their work overall, and real time changes to employee engagement to optimize their one-on-one communications specific to areas important to the employees.

## INCLUDED FEATURES:

- Integrated with Microsoft Teams
- Real-time engagement data
- Notification wall with live feed changes to engagement
- Engagement category dials for employees to identify what areas of the employee experience is most important to them
- Enhance manager-employee communication
- Turn your business managers into better people managers
- Monitor and increase employee engagement
- Improve the employee experience
